Exciting times ahead

Spring is in the air, and this is a perfect time for change. We were last in touch during the height of the pandemic, how things have moved on since then.

Our role is to provide assistance in sustainable travel planning, as part of that we have this newsletter, and an annual survey with a chance to win a £25 Amazon voucher. Just follow the survey link to the right:

We have also been busy developing a website for you as a one stop shop for all your sustainable transport needs. Check out

www.tpc-rodgersleask.co.uk

there is a whole range of helpful advice on there.

Covid Restrictions Lifted

As this phase of the pandemic draws to a close, now is the perfect chance to enjoy some spring air and some active travel! Why not take a pleasant stroll to Barkby Road Nurseries garden centre?

Have you considered getting the no.5 bus to Leicester? You could have a day out at the shops. The buses are every 30 mins and you'll be in town in a flash!!

Highway Code Changes

Great news everyone!

The highway code has been changed to encourage a safer environment for non-car users.

The change in priority means that if you are a motorist you need to be considerate of more vulnerable road users such as pedestrians, cyclists and horse riders. These people aren't in an armoured metal box so are more likely to get seriously hurt.

Remember, give cyclists more space when overtaking, look behind you when you open your car door by using your opposite hand and let people and bikes cross a road before you turn into a junction.

This will help everyone share the space fairly and equitably.

To view the new Highway rules, simply scan this QR code

HELPFUL LINKS

To finalise this newsletter, here are a selection of helpful links that might make navigating easier.
